Poorest Economies Can Export More

Advanced and emerging economies can make it easier for the least developed countries to sell more products abroad

Katrin Elborgh-Woytek and Robert Gregory

MAJOR contributor to widespread poverty is the lack of integration of poorer economies into the global economy. Although trade is only part of the solution, were poorer economies able to sell more goods to advanced and emerging economies, they would benefit...

Below potential

Although the poorest 49 countries account for about 1 percent of global GDP they supply less than 0.5 percent of global non-oil exports.
