Oxford Research Encyclopedias offer in-depth, peer-reviewed summaries on an ever-growing range of topics. The long-form overview articles are written and edited by leading scholars and researchers, addressing both foundational and cutting-edge topics across the major disciplines. Oxford University Press developed this program in response to a growing need for reliable information to be used at the start of serious research on an unfamiliar topic.

Designed to inform academic research at all levels, the *Oxford Research Encyclopedias* are a constantly growing and evolving reference source. Each subject goes beyond the basic facts to contextualize topics within existing scholarship and help pave the way to deeper engagement and inquiry.

The screenshot shows the homepage of the Oxford Research Encyclopedias website. At the top, there are navigation links: About, Subscribe, Customer Services, News, and Personal Profile: Sign In or Create. The main header is "OXFORD RESEARCH ENCYCLOPEDIAS". Below this is a blue bar with "Browse by Subject" on the left and a search bar on the right labeled "Advanced search". The main content area has a dark blue background with a large image of a modern building. On the left, there is a white box with the Oxford University Press logo, a "Search your library's resources" input field, and a "Sign in to an additional subscriber account" button. To the right of this box, the text "Welcome to Oxford Research Encyclopedias" is followed by three bullet points: "Current, peer-reviewed trustworthy research, read in 30 minutes or less across 25 encyclopedias.", "Includes the *Encyclopedia of Social Work* and the *Oxford Classical Dictionary*", and "Have questions about how to use the redesigned website? Check out [What's Changed](#)." Below these are links for "Learn more" and "News". At the bottom, there are two featured sections. The first is "FEATURED Telework and Remote Work" with a small image of a person working and text about COVID-19 forcing teleworking. The second is "FEATURED Economics and the Endangered Species Act" with a small image of a bird and text about the role of economics in the design, implementation, and evaluation of the Endangered Species Act (ESA).

Oxford Scholarly Editions Online (OSEO) features over 1,600 authoritative online editions of **original works by some of the most important writers and philosophers in the humanities**, from Aeschylus, **Austen**, Bentham, Catullus, **Dickens**, and Donne through to Plato, Virgil, and Wordsworth.

Scholarly editions are the cornerstone of humanities scholarship, and Oxford University Press' list is unparalleled in breadth and quality.

Preserving the traditional link with print, OSEO has broken the print editions apart to put the texts themselves front and centre, making them fully accessible to students and scholars worldwide.

The screenshot shows the OSEO website with a navigation bar at the top containing links for About, News, Subscriber Services, Help, FAQs, Contact Us, and a Personal Profile section with Sign in or Create options. The main header features the site title and a search bar with a search icon. Below the header is a blue navigation bar with 'Browse' and links to 'My Content (0)' and 'My Searches (0)'. The main content area is divided into three columns. The left column includes a sign-in section with an 'Automatically Signed In' status and a link to 'Sign in to an additional subscriber account', followed by a quote from Charles Dickens about reading Uncle Tom's Cabin, a 'Focus on Classics' section with a mosaic of Virgil's face, and a 'The New Oxford Shakespeare' section. The middle column has three image-based links: 'Browse Authors' (with a portrait of a man), 'Browse Works' (with a book cover), and 'Browse Editions' (with a stack of books). The right column features a 'News' section with three updates: 'New Titles in October 2021' (21 new editions), 'New titles in May 2021' (15 new editions), and 'New titles in March 2021' (10 new editions), each with a 'more news' link. A 'Getting started' section with a bulleted list of links is also present.

Oxford Scholarly Editions Online
Available for the first time online, Oxford's scholarly editions provide trustworthy, annotated primary texts for scholars and students.
OSEO currently includes writers active between 701 and 1901, plus Roman and Greek authors — from Aristotle, Austen, Bentham, Catullus, Dickens, and Donne through to Plato, Virgil, and Wordsworth. It contains over 1,600 scholarly editions — the equivalent of more than 800,000 print pages.

Getting started:

- Go straight to [selected works](#), or use quick [how to videos](#)
- See the [complete list](#) of included editions
- Read the [letter from the Publisher](#)
- [Learn more](#) about the site, or watch the [full story](#)
- Find out more about the [Oxford Latin Dictionary](#)

News
[New Titles in October 2021](#)
Twenty-one new editions have been added in October 2021.
[New titles in May 2021](#)
Fifteen new editions have been added in May 2021.
[New titles in March 2021](#)
Ten new editions have been added in March 2021.
[more news »](#)

- **Writing worth reading** – OSEO provides access to the works of some of the most important writers and philosophers in the humanities, including Classical writers.
- **Authoritative and reliable** – OUP has an unrivalled line-up of scholarly editions. This trust has been reinforced in the online space through the presence of an Editor-in-Chief and academic advisors, and in the provision of original print PDFs for every page.
- **Enhancing research in the humanities** – OSEO preserves the traditional link with print, but it has also broken the print editions apart (with notes, extras, 'read-with' function, and links to the OED and OLD), so you can see all of an author's works in one place, and move straight to an individual play, poem, or letter, or even to a particular line number or scene.

“The whole of OSEO is vastly more powerful than the sum of its parts.” – Michael F. Suarez, S.J., Editor-in-Chief
