Search Tips

Wildcard & Truncation Symbols

- The **asterisk (*)** will account for various name endings, up to 5 extra characters. For example, searching **Char*** *will return hits on names like Charles, Charley, Charlie, Charlene, or Charlotte and any other names beginning with the letters Char. Note that you must type in at least the first three letters of the name before putting in the wildcard.*
- The **question mark (?)** is used when you only want one letter of a name to be different. If you are trying to find the name *Hansen* that was also sometimes spelled *Hanson*, you could type in **Hans?n** to find both variants. *Note that you must type in at least the first three letters of the name before putting in the wildcard.*

Search Tips (cont'd)

- When searching **Keywords**, try using quotation marks around two or more terms (i.e., “civil rights,” “World War II”) to aid in the precision of the search, ultimately retrieving more accurate results.
- Name Searching:
 - Use the Advanced Search page for additional limits (e.g., expanding to initials searching)
 - Enter two last names into the Last Name field
 - Use the Family Members search fields to narrow or refine search queries
 - Swap the names entered into the name fields
